

ABOUT ME

I am an M2 Cybersecurity student with background in various fields including software and web development, embedded systems, operating systems, mobile technologies and systems. I have more than 5 years of experience in web security, system's security and reverse engineering. I aim to become a security researcher in the field of kernel, hypervisor and sandbox security.

CONTACT

Email: ahmad.shami@etu.univ-grenoble-alpes.fr
Phone: +33 7 63 67 63 63
Website: snaggy-w.github.io
Location: Grenoble, France

SKILLS

- C/C++, C#, VB development
- Python, Bash, PS scripting
- Android Development & Reverse Engineering
- Binary Static & Dynamic Analysis
- Embedded systems modelling & VHDL
- PHP base development
- Django/Flask development
- Node.js development
- GNU/Linux + Proxmox System administration
- Active Directory/Windows system administration
- Docker and networking Administration
- Git version control

LANGUAGES

English (Fluent)
IELTS C1, 7.5
Arabic (Native)
French (A2)

M2 Internship Applicant
Université Grenoble Alpes/Ensimag

EDUCATION

M2, CYBERSECURITY (CYSEC) <i>Ensimag Grenoble INP/IM2AG – UGA.</i>	2026–Present
◊ Courses in: Software Security, Embedded systems Security, Cryptography.	
M1, INFORMATICS (MoSIG) <i>IM2AG – Université Grenoble Alpes (UGA).</i>	2025–2026
◊ Courses in: Operating Systems, Compiler Design, Introduction to Cryptography, Modelling of Embedded Systems, Robotics, Mathematics, Parallel Programming.	
M1, INFORMATICS & INFORMATION SYSTEMS ADMINISTRATION <i>Lebanese University, Faculty of Technology.</i>	2024–2025
◊ Ranked 3rd.	
◊ Courses in: Information Systems Management, Business Administration, Software Development, Web development, Mobile Development, AI.	
LICENCE PROFESSIONNELLE (L3), COMPUTER NETWORKS & SECURITY <i>Lpro CNMS – UGA.</i>	2023–2024
◊ Ranked 1st, 16.6/20.	
◊ Courses in: Cloud Computing, Networking, Network Security, Database Management, Risk Analysis, Threat Analysis, Pentesting.	
BACHELOR, COMPUTER NETWORKS, SIGNALS & IOT <i>Lebanese University, Faculty of Technology.</i>	2021–2023
◊ Ranked 3rd, 71.58/100.	
◊ Courses in: Networking, Signalsand Signal Processing, Electronics and IoT, Mathematics, Software Development, Low Level Programming.	
BACCALAURÉAT, GENERAL SCIENCES	2020–2021
◊ Honours – 18/20, 28th nationwide.	
◊ High school degree in mathematics and physics.	

EXPERIENCE

VULNERABILITY RESEARCH INTERNSHIP <i>Verimag, Grenoble</i>	Jan–Jul 2026
◊ Research internship to answer the question “How good are LLMs in detecting software vulnerabilities?” by building an AI agentic framework that is capable of exploiting C based programs.	
◊ Tested the deployment of LLM models on local clusters.	
◊ Evaluated techniques to more effectively utilize LLMs to find vulnerabilities in software.	
INTERN – SYSTEM ADMINISTRATION & SOFTWARE DEVELOPMENT <i>LPSC – IN2P3/CNRS.</i>	Mar–Jul 2024
◊ Handling and taking advantage of servers and services logs using Syslog and different industry grade SIEMs (ELK/Grafana Loki/Graylog).	
◊ Worked on the migration process from ESXI clusters to Proxmox clusters.	
◊ Developed an access request web portal to physical experiments via a LAMP stack.	
◊ Developed automation scripts using Bash & Python to handle user access, user creation and user authentication to servers conducting physical experiments.	

CENTERS OF INTEREST & HOBBIES

COMPETITIVE CAPTURE THE FLAG (CTF) PLAYER	2020–Present
◊ Rigorous practitioner of pentesting vulnerable labs like TryHackMe and Hack The Box.	
◊ Live CTF competitions player: Actively participating in CTF competitions and CTF platforms like picoCTF and pwn.college.	
BUG BOUNTY HUNTING	2023–2025
◊ Pursued vulnerability disclosure programs on HackerOne and YesWeHack. Disclosed 2 bugs in web application Oauth solutions and web to C compiler intergrations.	
INTELLECTUAL ACTIVITIES	
◊ Reading novels and books about psychology sciences, strategy sciences..., learning electric guitar music.	
SPORTS AND ENTERTAINMENT	
◊ Swimming, Tennis, Retro emulated video games, Strategy defense games, Platformer games.
